PROJECTS

MY PORTFOLIO | LINK
March 2023 - Now
→ This is my portfolio website, built by myself.
→ I used HTML, CSS, and js to build this project.
→ for the fonts and icons I used font-awesome.
→ This website is fully responsive for all screen sizes.

SNEAKSTAR (ECOM WEBSITE) | LINK
July 2023 - Now
→ This is a Full front-end E-commerce project.
→ I used React to build this project.
→ Integrated Font Awesome for elegant icons and fonts.
→ Developed a fully responsive website using React, showcasing adaptability across diverse screen sizes.

AI NEWS WEB APP
May 2023 - Now
→ Developed a voice-assisted news website as my final year minor project.
→ Collaborated adeptly within a four-member team to conceptualize and build this project.
→ Led the front-end development efforts, ensuring an engaging user interface.
→ Utilized HTML, CSS, JavaScript, and React for implementation, seamlessly incorporating Alan AI's open-source framework for voice assistance.
